

# Xiaomi Redmi Note Front-Facing Camera Replacement

Replace the front-facing, selfie camera on the Xiaomi Redmi Note phone.

Written By: Caitlin Settles

## INTRODUCTION

This guide will show you how to replace the front-facing "selfie" camera on your Xiaomi Redmi Note.

---

### TOOLS:

- [iFixit Opening Tools](#) (1)
  - [Phillips #00 Screwdriver](#) (1)
  - [Tweezers](#) (1)
-

## Step 1 — Battery

- ❗ Make sure the Xiaomi Redmi Note is powered off before removing the battery.
- Insert the plastic opening tool between the charging port and the rear case.
- Pry the end of the rear case up from the charging port.

## Step 2

- Run the plastic opening tool along the seam on the side of the phone to remove the rear casing.

## Step 3

- Locate the indentation at the bottom of the battery.
- Place a finger in the indentation and lift up to remove the battery.

## Step 4 — Midframe

- Remove twelve 3.5mm Phillips #00 screws from the midframe.

## Step 5

- Insert a plastic opening into the seam between the midframe and the bottom frame of the phone.
  - Run the plastic opening tool along the seam.
  - Pry up the midframe with the plastic opening tool.
  - Once the midframe has been sufficiently lifted with the tool, place a hand underneath the edge to lift the entire component out of the frame.
-  There will be snapping sounds as the clips on the midframe disconnect from the phone.

## Step 6 — Front-Facing Camera

- Use tweezers to lift the retaining flap of the zero insertion force (ZIF) connector to the upright position.
- Use tweezers to pull the ribbon cable out of the ZIF connector.
- Remove the front-facing camera from the motherboard.

To reassemble your device, follow these instructions in reverse order.
